

Objective Selection Criterion:

U.S. Ski & Snowboard reserves the right to remove specific competitions for consideration in its objective selection criterion, subject to the approval of the relative U.S. Ski & Snowboard Sport Director, the Chair of the relevant U.S. Ski & Snowboard Sport Committee, and the U.S. Ski & Snowboard CEO. Removal of a competition(s) could be triggered by any of the following cases:

1. The competitor field being significantly weakened by the withdrawal of multiple nations
2. The withdrawal of the U.S. Team, due to travel or COVID-19 concerns or related travel restrictions
3. Other unforeseen issues related to the event(s)

Removal of an event(s) from objective selection criterion does not otherwise remove the event(s) from discretionary decision nomination consideration for team selections.

Affected athletes will be notified as far in advance as possible of any event removal from the objective selection criterion.
