2024 Cross Country International Continental Cup Selection Guidelines

Eligibility for Consideration

U.S. Ski & Snowboard will consider for selection only those U.S. Ski & Snowboard members in good standing who have a valid U.S. passport, a valid USA-coded FIS license and who meet FIS minimum eligibility standards.

At all FIS competitions, including the International Continental Cups, a competitor must have reached his or her 16th birthday before the end of the calendar year (1st January – 31st December) in which the season ends.

U.S. Ski & Snowboard provides an equal opportunity to amateur athletes, coaches, trainers, managers, administrators, and officials to participate in amateur athletic competition, without discrimination on the basis of race, color, religion, age, sex, or national origin, and with fair notice and opportunity for a hearing before declaring any such individual ineligible to participate.

Criterion Guidelines

- These guidelines are for purposes of the U.S. Ski & Snowboard led International Continental Cup projects where National Nordic Foundation (NNF) funding is utilized.
- U.S. Ski & Snowboard policy mandates that team selection criteria shall be principally objective (or performance-based) and that available start rights and team spots will not necessarily be filled, but it may select athletes to the Team using coaches' discretion.
- The U.S. SKI & SNOWBOARD Cross Country Development Director is responsible for applying the selection guidelines set forth herein, subject to the oversight of the Cross Country Program Director of the U.S. Ski Team.
- To ensure that the United States fields a representative team, minimum team size should strive for athlete representation from both genders from U20, U23, U26 and senior age categories. Total team size will be based on ensuring a strong race support and will not exceed a ratio of one (1) staff to four (4) athletes.
- Total team size will not exceed sixteen (16) athletes.
- When selecting athletes to the team, tie-breaking goes to the older athlete (earlier year of birth).
- Team status does not include funding from the U.S. SKI & SNOWBOARD.

Objective Guidelines

- Objective selection guidelines shall be based on the results achieved by athletes in FIS competitions. To be eligible, athletes must meet one of the criteria below. Discretionary Selection Guidance Policy

U.S. SKI & SNOWBOARD may select athletes to the team using coaches' discretion. If the coaching staff fills any available spot(s) on the team with discretionary selections, then the staff may consider any factors including (but not limited to) the following:

- 1) Current gender make-up of the team. The gender with fewer athletes on the team will have the next discretionary selection opportunity.
- 2) Outstanding competition results (including results achieved outside of the selection period).
- 3) Recent direction or trend of competition results (i.e., improving, flat, or declining).
- 4) Illness or injury during the selection period.
- 5) Other unanticipated failure of objective criteria to select an athlete likely to achieve competition results consistent with U.S. SKI & SNOWBOARD program goals for the International Continental Cup trip.

Injury Clause

An athlete shall be ineligible for consideration if he/she is not fit to compete at the time selections are made due to any injury or illness from which he/she is not expected to recover adequately by the time of the competitions he/she has been selected for. Such determination shall be at the discretion of the U.S. Ski & Snowboard Cross Country Development Director in consultation with the U.S. Ski & Snowboard Medical Director, the Head Team Physician, and the athlete's designated physician.
